CLOSEOUT AT 1/2 OF CURRENT MARKET VALUE!

PRICES AVAILABLE FOR SCREWS UPON REQUEST!

All continuous hinges sold only in multiples of 10 lengths, same size & finish.

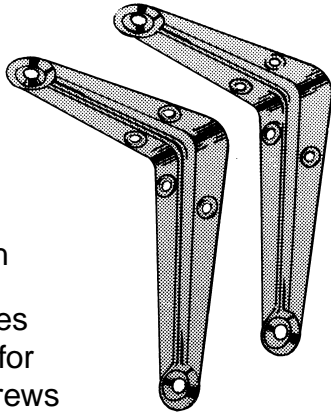

1) Continuous hinges also available in other lengths, finishes, metals. Write for prices and samples.

†2) Plain Steel and Aluminum available blank without holes drilled, or drilled and countersunk

PLEASE BE SURE TO SPECIFY TYPE WANTED.

HEAVY GAUGE PATTERN SHELF BRACKETS

Heavier than most other lightweight brackets being marketed, such as Stanley 797 Series.

Heavy, deep fluting adds extra strength

All screw holes countersunk for large size screws

NOW AVAILABLE IN 3 ACRYLIC LACQUERED FINISHES

WH - WHITE
BN - BROWN
GE - GREY

These finished brackets need no painting

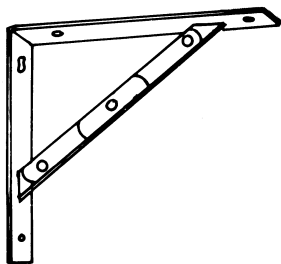

- 60% heavier than most other lightweight brackets now being marketed such as Stanley #797 Series.
- Acrylic lacquered after fully manufactured, not like many other brands which are manufactured from prepainted sheet steel which result in all unfinished edges and screw holes.
- All screw holes are with fully finished countersinking for use with large size flat countersunk head screws while most USA competitors' brackets are with small non-countersunk screw holes which require round head screws which don't have as much holding power as heavy flathead countersunk screws.
